

23 February 2017

Dear Parents and Guardians,

The Zek PTA is looking for HELP from YOU!!!.

Members of the PTA are being spoken to regularly in regards to security for the school, and are hearing lots of different things that parents' want included as part of the internal and external security for the school.

As you are aware, many things are being done right now, height of fences have been raised, using razor wire, fences have been covered so that visibility into the school grounds have been reduced, new internal gates have been placed, and the new main gate entrance is being worked on. Other internal safety measures will occur over the coming weeks and months.

We are aware that some parents have requested that security personnel be placed around the perimeter of the school. This is a subject that is very personal to each individual family. What we would like to know is..... what do **YOU** want?

Lack of response to this survey will be taken that you are happy with the measures currently taken by the school.

Please click on the survey link below to answer 2 very simple questions. Responses will be anonymous.

Keeping in mind that this is **a PTA survey only**. It has come about due to the current climate, and in order to represent your interests, we would like to know what you are thinking. In this way we can best present YOU and your needs, at future PTA meetings.

Have your say.....Please respond to this survey by the 1st of March.
